Re: Contract Award of RFP #201726 Printing and Mailing of Election Material

Background

Request for Proposal 201726 was published to solicit proposals from qualified suppliers to provide printing and mailing of election material for the Pinal County Recorder's and Elections departments.

Selection Process

Three (3) proposals were received and opened on November 17, 2020 at 2:15 p.m. All three proposals were deemed responsive and responsible and were evaluated by a three-person committee. Proposals were scored on Method of Approach, Capacity of the Responder, Cost, and Conformance to Terms and Conditions and Statement of Work. A summary of the evaluation scores for each Responder is included in the attached Evaluation and Award Determination.

Responders:

K&H Election Services
Runbeck Election Services
West Press

Recommendation

After review and scoring of the proposals by the evaluation committee, it is recommended that the Board of Supervisors approve the award of RFP 201726 for Printing and Mailing of Election Material to Runbeck Election Services. The term of the proposed contract is an initial one (1) year term beginning January 6, 2021 through January 5, 2022, with four (4) one-year optional extensions. The estimated cost to the County is \$500,000 for the initial term.

The Board is also requested to authorize the Finance Director to approve and sign any resulting administrative documents.

Any questions regarding the outcome of this solicitation or resultant contract may be directed to the Procurement Officer, Tiara Peterson.

Respectfully submitted,

Tiara Peterson

Attachment: Evaluation and Award Determination

January 6, 2021

RFP 201726 Printing & Mailing of Election Material
Evaluation and Award Determination

In accordance with the Pinal County Procurement Code, the Pinal County Purchasing Division has determined Runbeck Election Services to be the most advantageous to the County based on the evaluation criteria set forth in the solicitation.

Score Tabulation

	Total	Method of Approach	Capacity of Responder	Cost	Conformance
Supplier	/ 1,000.00 pts	/ 450 pts	/ 250 pts	/ 200 pts	/ 100 pts
Runbeck Election Services	825	325	200	200	100
K&H Election Services	741	325	150	166	100
West Press	640	220	120	200	100

Any questions regarding the outcome of this solicitation or resultant contract may be directed to the Procurement Officer, Tiara Peterson.

Re: Contract Amendment 150922RFP Managed Print Services

It is requested the Board approve a contract term extension with Fruth Group who provides managed print services to the entire County.

The County spent approximately \$325,000 on this contract during fiscal year 2019-2020 and the same is anticipated during the current fiscal year.

The new term, if approved, will be extended effective January 1, 2021, and will continue through December 31, 2021. After this extension, one (1) one-year optional extension will remain.

It is also requested the Board authorize the Finance Director to approve and sign resulting purchase orders and related administrative documents. All other terms and conditions remain unchanged.

Re: Contract Amendment #194225RFP Property and Evidence Management System

It is requested the Board approve a modification to the contract with FileOnQ, Inc. who provides a property and evidence management system for the Sheriff's Department.

The proposed contract amendment would include negotiated changes to the milestone and retainage schedule:

- A 50/50 split of the final milestone retainage of 10% due to schedule delay.

It is also requested the Board authorize the Finance Director to approve and sign resulting purchase orders and related administrative documents. All other pricing, terms and conditions remain unchanged.

Respectfully submitted,

Krystle Sigman

Contract 194225RFP
Amendment #1
Procurement Officer: Krystle Sigman
Krystle.sigman@pinal.gov

Property and Evidence Management System

Contractor Name: **FileOnQ, Inc.**

Pursuant to Paragraph 14 (Contract Changes), the above referenced contract shall be amended as follows:

1. Contract paragraph 5.2 is revised to:

- 5.2 Milestones and Retainage. The following table identifies milestone events, deliverables, payment percentages and retainage:

Milestone Event	Deliverable	Payment Percentage	Retainage*
Award	----	80%	20%
Event #2 Hardware and Software delivery	Delivery of software, licenses and modules on the County server and of hardware and peripherals	10% if completed by 7/31/2020	10%
Event #3 Extension of project completion	Retainage split to extend project completion date.	5%	5%
Event #4 Project completion	County Final Approval and acceptance of installed operational system	5% if completed by 1/31/2021	0%

*Supplier invoices shall show retainage of twenty percent (20%).

Following completion of the delivery of software, licenses and modules on the County server by July 31, 2020, retainage will decrease to ten (10%). If delivery of software, licenses and modules on the County server isn't completed by July 31, 2020, County will keep 10% of the retainage.

Following final acceptance by the County of a completely installed operational system by January 31, 2021, 5% of retainage shall be paid by the County. If final acceptance by the County of a completely installed operational system isn't received by January 31, 2021, County will keep 5% of the retainage.

2. All other Terms, Conditions, and Pricing remain the same.

PROPOSER ASSURANCE OF COMPLIANCE

Proposal Affidavit Signature Page

PROPOSER'S AFFIDAVIT

The undersigned, authorized representative of the entity submitting the foregoing proposal (the "Proposer"), swears that the following statements are true to the best of his or her knowledge.

1. The Proposer is submitting its proposal under its true and correct name, the Proposer has been properly originated and legally exists in good standing in its state of residence, the Proposer possesses, or will possess before delivering any products and related services, all applicable licenses necessary for such delivery to NJPA members agencies. The undersigned affirms that he or she is authorized to act on behalf of, and to legally bind the Proposer to the terms in this Contract.
2. The Proposer, or any person representing the Proposer, has not directly or indirectly entered into any agreement or arrangement with any other vendor or supplier, any official or employee of NJPA, or any person, firm, or corporation under contract with NJPA, in an effort to influence the pricing, terms, or conditions relating to this RFP in any way that adversely affects the free and open competition for a Contract award under this RFP.
3. The Proposer has examined and understands the terms, conditions, scope, contract opportunity, specifications request, and other documents in this solicitation and affirms that any and all exceptions have been noted in writing and have been included with the Proposer's RFP response.
4. The Proposer will, if awarded a Contract, provide to NJPA Members the /products and services in accordance with the terms, conditions, and scope of this RFP, with the Proposer-offered specifications, and with the other documents in this solicitation.
5. The Proposer agrees to deliver products and services through valid contracts, purchase orders, or means that are acceptable to NJPA Members. Unless otherwise agreed to, the Proposer must provide only new and first-quality products and related services to NJPA Members under an awarded Contract.
6. The Proposer will comply with all applicable provisions of federal, state, and local laws, regulations, rules, and orders.
7. The Proposer understands that NJPA will reject RFP proposals that are marked "confidential" (or "nonpublic," etc.), either substantially or in their entirety. Under Minnesota Statute §13.591, Subd. 4, all proposals are considered nonpublic data until the evaluation is complete and a Contract is awarded. At that point, proposals generally become public data. Minnesota Statute §13.37 permits only certain narrowly defined data to be considered a "trade secret," and thus nonpublic data under Minnesota's Data Practices Act.
8. The Proposer understands that it is the Proposer's duty to protect information that it considers nonpublic, and it agrees to defend and indemnify NJPA for reasonable measures that NJPA takes to uphold such a data designation.

[The rest of this page has been left intentionally blank. Signature page below]

By signing below, Proposer is acknowledging that he or she has read, understands, and agrees to comply with the terms and conditions specified above.

Payment Terms, Warranty, Products and Services, Pricing and Delivery, and Industry-Specific Questions

Proposer Name: Bergkamp Inc.

Questionnaire completed by: Sara Olberding

Payment Terms and Financing Options

- 1) What are your payment terms (e.g., net 10, net 30)? **Bergkamp payment terms are Net 30**
- 2) Do you provide leasing or financing options, especially those options that schools and governmental entities may need to use in order to make certain acquisitions?
Bergkamp can help direct an Agency to find alternative financing options through industry recommendations.
- 3) Briefly describe your proposed order process. Please include enough detail to support your ability to report quarterly sales to NJPA. For example, indicate whether your dealer network is included in your response and whether each dealer (or some other entity) will process the NJPA Members' purchase orders.
Purchased orders (PO) received by Bergkamp directly under their NJPA contract (as opposed to using an NJPA truck dealer) will be processed and handled by internal corporate staff. The PO process tracks each transaction type (i.e. standard bid or contracted pricing by agency) so quarterly sales reports can be generated accordingly in order to remit administration fees to the proper agency.
- 4) Do you accept the P-card procurement and payment process? If so, is there any additional cost to NJPA Members for using this process?
Yes, Bergkamp accepts P-card procurement and payment for parts and services with no additional costs. However, purchases for whole goods will incur up to a 3% fee.

Warranty

- 5) Describe in detail your manufacturer warranty program, including conditions and requirements to qualify, claims procedure, and overall structure. You may include in your response a copy of your warranties, but at a minimum please also answer the following questions.
 - Do your warranties cover all products, parts, and labor? **Yes, See Attached 12 Month Warranty Document**
 - Do your warranties impose usage restrictions or other limitations that adversely affect coverage? **Yes: THIS WARRANTY SHALL NOT APPLY TO ANY PRODUCT WHICH HAS BEEN SUBJECT TO MISUSE, MISAPPLICATION, NEGLIGENCE, ACCIDENT, IMPROPER INSTALLATION, MODIFICATION ADJUSTMENT, OR REPAIR.**
 - Do your warranties cover the expense of technicians' travel time and mileage to perform warranty repairs? **Warranties do not cover the expense of technicians' travel time and mileage to perform warranty repairs.**
 - Are there any geographic regions of the United States for which you cannot provide a certified technician to perform warranty repairs?
Bergkamp can provide a certified technician to perform warranty repairs in all geographic regions of the United States.
 - How will NJPA Members in these regions be provided service for warranty repair?
All regions will be provided service for warranty repair.

- Will you cover warranty service for items made by other manufacturers that are part of your proposal, or are these warranties issues typically passed on to the original equipment manufacturer?
Bergkamp will handle these upon return of the part(s) for warranty consideration, and confirmation from the vendor that the part is warrantable. We will use a local vendor representative if this results in quicker service to the equipment owner.
- What are your proposed exchange and return programs and policies?
Bergkamp equipment is made-to-order and all capital good sales are final. Specifications are reviewed and approved by the agency prior to the start of production. Any discrepancies are reviewed on an individual basis and are mutually resolved.
For parts exchange and returns, See Attached Parts Restocking Fee. The manager of the Customer Business Unit (CBU) has the authority to modify the restocking fee program as he deems appropriate for each individual case.

6) Describe any service contract options for the items included in your proposal.

Bergkamp offers extended warranties up to five years from the original date of purchase to the original agency that purchased the equipment for an additional cost.

Bergkamp Follow Up, Inspection and Training (B-F.I.T.) is a Post-Sale Equipment Inspection Program. A Bergkamp technical specialist travels to the customer site either once (Silver Plan) or twice (Gold Plan) a year as determined in the plan the agency selects. The Bergkamp specialist provides the agency with equipment usage reports and updates, completes a 66 point equipment inspection as well as training for new employees along with refresher courses for other employees. See the B-F.I.T. tab on the pricing spreadsheet.

Pricing, Delivery, Audits, and Administrative Fee

7) Provide a general narrative description of the equipment/products and related services you are offering in your proposal.

Bergkamp Inc., established in 1977, is family owned manufacturer of Pavement Preservation and Maintenance Equipment, which includes Micro Surfacing, Slurry Seal and supporting equipment, as well as Truck Mounted Pothole Patching Equipment for NJPA members. Bergkamp also is a supplier of Bituminous Laboratory Research Plants. Our equipment and accessory items are designed to provide lasting solutions for pavement preservation in the most safe, efficient and environmentally responsible manner. The laboratory plant provides agencies including colleges and universities a platform to test, improve and design asphalt emulsion recipes. Bergkamp's company philosophy and purpose is to impact the world by Making Roads Better.

8) Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the NJPA discounted price) on all of the items that you want NJPA to consider as part of your RFP response. Provide a SKU for each item in your proposal. (Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract. See the body of the RFP and the Price and Product Change Request Form for more detail.)

See Attached Pricing Spreadsheet for all Equipment, Accessories, Extended Warranties and B-F.I.T.

9) Please quantify the discount range presented in this response. For example, indicate that the pricing in your response represents is a 50% percent discount from the MSRP or your published list.

Bergkamp offers a special 10% discount from list for this RFP.

10) The pricing offered in this proposal is

- ☐ a. the same as the Proposer typically offers to an individual municipality, university, or school district.
- ☒ b. the same as the Proposer typically offers to GPOs, cooperative procurement organizations, or state purchasing departments.
- ☐ c. better than the Proposer typically offers to GPOs, cooperative procurement organizations, or state purchasing departments.
- ☐ d. other than what the Proposer typically offers (please describe).

- 11) Describe any quantity or volume discounts or rebate programs that you offer.

Quantity or volume discounts or rebate programs are not applicable.

- 12) Propose a method of facilitating “sourced” products or related services, which may be referred to as “open market” items or “nonstandard options”. For example, you may supply such items “at cost” or “at cost plus a percentage,” or you may supply a quote for each such request. **A quote to be given for each special request.**

- 13) Identify any total cost of acquisition costs that are **NOT** included in the pricing submitted with your response. This cost includes all additional charges that are not directly identified as freight or shipping charges. For example, list costs for items like installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.

Total cost of acquisition costs NOT included on the pricing spreadsheet would be any special or custom features requiring additional engineering or installation.

- 14) If delivery or shipping is an additional cost to the NJPA Member, describe in detail the complete shipping and delivery program.

Shipping costs are generally the responsibility of the buyer. Pothole patchers and micro-surface equipment typically are mounted on a chassis. In this case the equipment can deliver via a ‘drive away ‘ service, or transported to the destination via flatbed. If unmounted, the equipment is transported via long haul carrier on a flatbed trailer.

Shipping arrangements may be made by the buyer, but if requested, Bergkamp will arrange the shipping and invoice the buyer for the costs.

- 15) Specifically describe those shipping and delivery programs for Alaska, Hawaii, Canada, or any offshore delivery.

Canadian and some Alaskan orders will ship via surface with a long haul carrier (flatbed) or ‘drive away’ service. Hawaiian, offshore and some Alaskan shipments will ship ocean freight. Most equipment shipping ocean cannot be accommodated in a closed container and is considered ‘Out of Gauge’ (OOG). The equipment will travel to the shipping port via flatbed, then load on an open ‘flat rack’ container for transport on the vessel. Offshore shipments are quoted with Incoterms CIF.

- 16) Describe any unique distribution and/or delivery methods or options offered in your proposal.

Bergkamp works to minimize the shipping costs to our customers. For example, spreader boxes for micro-surfacing equipment may be mounted and shipped in the hopper of the paver. Multiple units can sometimes travel together on the same trailer. For international equipment orders, or orders going to Hawaii or Alaska, it makes sense to include spare parts orders with the equipment, and ship on the shipping skid or in the hopper. Bergkamp is employing the use of international free trade zones.

- 17) Please specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with NJPA. This process includes ensuring that NJPA Members obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to NJPA.

Contracted pricing for NJPA members will be preset within our quotation and PO process. Two internal pricing reviews will be required prior to submitting pricing to the member. Bergkamp’s PO process tracks each transaction type (i.e. standard bid or contracted pricing by agency) so quarterly sales reports can be generated accordingly in order to remit administration fees to the proper agency.

- 18) Identify a proposed administrative fee that you will pay to NJPA for facilitating, managing, and promoting the NJPA Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor’s sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member’s cost of goods. (See RFP Section 6.29 and following for details.)

Bergkamp proposes to pay NJPA an administrative fee of 2% to be calculated as a percentage of Bergkamp’s sales under the contract.

Industry-Specific Questions

- 19) Identify the required subcategory or subcategories that best describe your solutions: Subcategory A) Roadway Surface Maintenance and Repair Equipment; Subcategory B) Roadway Surface Marking Equipment and Paint; Subcategory C) Road Right-of-Way Management Equipment and Chemicals; and/or Subcategory D) Equipment and Products in Support of Roadway Maintenance and Repair.

Subcategory A and D best describe Bergkamp equipment solutions.

- 20) Describe the features of your proposed solution(s) that address serviceability (parts availability, maintenance, repairs, support, etc.) and which you believe are "vendor differentiators."

Bergkamp Vendor Differentiators include the following:

- **In-house team of engineers that provide new and improved solutions to the industry**
- **Customer Business Unit (CBU) operations**
 - **Extensive part inventory, with quick delivery turn around**
 - **Technical support, documented, with follow up after initial contact from the agency**
 - **Hosts technical school training – In-House and at select field locations**
 - **Facilitates Bergkamp Equipment Service Technology - BEST**
 - **An on-line parts quote and ordering system**
 - **Access to part catalogs and operation manuals**
 - **Technical and service bulletins**
 - **Truck Specifications**
- **Bergkamp Follow Up, Inspection, Training B-F.I.T.**
 - **Provides agencies with additional periodic training**
 - **Proactive equipment inspection to minimize downtime**

- 21) Describe any manufacturing processes or material specification attributes that differentiate your offered solutions.

A unique specification for the FP5 Pothole Patcher is the variable displacement hydraulic pump which gives the ability to run the PTO pump continuously regardless of truck speed. This allows the patching mix to consistently be heated at the optimal temperature for the mix design.

Bergkamp uses high quality steel manufactured in the United States which is selected for the appropriate application of use. Equipment components are selected by our logistics team based upon specifications by engineering and vendor ratings of quality, on-time delivery and lead times.

RE: Air Quality / U of A Agreement

Air Quality has a fixed price grant agreement with the University of Arizona for a project titled Arizona Regional High Resolution Computer Modeling Program. Air Quality pays a fixed rate of \$10,000 and in exchange receives a variety of data used for Air Quality monitoring.

Fixed Price Grant Agreement

Between
Pinal County Air Quality Control District
And
The Arizona Board of Regents, University of Arizona

This Agreement is entered into between Pinal County Air Quality Control District and The Arizona Board of Regents, University of Arizona ("University") in support of "Arizona Regional High Resolution Computer Modeling Program" (see Attachment #1 for the Scope of Work). The Grant Agreement is subject to the following terms and conditions:

1. The Principal Investigator for the project will be: Michael Leuthold
2. The Period of Performance for the project will be: August 1, 2020 through July 31, 2021
3. The amount of Funding (see Attachment #2 for the Budget) for the project will be: \$10,000 payable upon execution. Invoices will be administered by Sponsored Projects Services and shall be sent to:
Pinal County Air Quality
31 North Pinal St., Building F
PO Box 987
Florence, AZ 85132
4. Payment shall be made to the University within 30 days of receipt of invoice. Payment shall be sent to:
UArizona – Sponsored Projects & Contracting Services
PO Box 41867
Tucson, AZ 85717
5. Technical Reports will be provided by the Principal Investigator to Sponsor as required by the Scope of Work with the final report to be provided within 60 days of the end of the grant period.
6. Administrative Notices shall be sent to: Sponsored Projects Services, PO Box 210158, Rm 510, Tucson, AZ 85721-0158 or sponsor@email.arizona.edu
7. Each party shall be responsible for its negligent acts or omissions and the negligent acts or omissions of its employees, officers, or directors, to the extent allowed by law.
8. Either party may terminate this agreement with thirty days written notice.
9. This Agreement shall be interpreted pursuant to the laws of the State of Arizona.
10. The parties are required to comply with laws governing equal employment opportunity, nondiscrimination, and immigration.
11. The University shall retain any Intellectual Property that it develops during the course of the project.
12. The University shall be free to publish the findings of the project.
13. Any modification to the above understandings shall be in writing and signed by authorized individuals of both parties.
14. Disputes arising from this Agreement may be subject to judicial arbitration in accordance with applicable law and court rules.

In Witness thereof, the Parties execute this Agreement as of the date written above.

Scope of Work

Introduction

This Statement of Work (SOW) is for the University of Arizona, Department of Hydrology and Atmospheric Sciences (HAS) to continue the Arizona Regional High Resolution Computer Modeling Program. This program has been operational for the past 10 years, providing the best available local forecasts derived from an Arizona specific version of the Weather Research and Forecasting (WRF) model which they have developed. This forecast product is used by the meteorological community of Arizona, including the National Weather Service offices in Tucson and Phoenix, the Salt River Project, Arizona Public Service, Tucson Electric, the Flood Control District of Maricopa County, Pima County Flood Control District, and the Arizona Department of Environmental Quality. A detailed model forecast discussion is provided during the monsoon to help end users assess the accuracy and details of the model forecasts.

Scope of Services

The U of A DAS shall provide the following services for the period of 1 August 2020 through 31 July 2021:

1. Daily Products
 - a. 72-84 hour 1.8km WRF forecasts based on the 0,6,12, and 18 UTC NCEP NAM, Rapid Refresh and GFS NCEP model initial conditions. The forecast domain will cover the state of Arizona with a high resolution display of surface forecasts variables for Pinal County. Model output graphics will be made available via the Regional Modeling web site.
 - b. A binary subset of model output data will also be made available if requested.
2. Monsoon season daily products. (~June 15th-September 30th)
 - a. A forecast discussion detailing model initial conditions and errors, model performance and confidence metrics, and overall impacts to model end users (severe weather, high winds/dust storm, flash flooding, and lightning risks).
 - b. This product maybe suspended during expected periods of inactive weather.
 - c. This product will also be available on the HAS web page similar to years past and/or via email distribution.

Deliverables

1. Model Forecast Products
 - a. Composite Radar
 - b. Precipitation
 - c. Accumulated Precipitation
 - d. Accumulated Snow
 - e. Snow Cover
 - f. 2m Temp
 - g. 10m Wind
 - h. Precipitable Water
 - i. OLR/Clouds
 - j. Solar Irr
 - k. 850mb Td
 - l. 700mb RH
 - m. 600mb VV
 - n. 500mb Heights/Temp/Wind
 - o. 250mb Wind
 - p. MCAPE
 - q. TUS Skew-T

- r. PHX Skew-T
 - s. Ventilation, Mixing Height, and Transport Winds
 - t. Soil Moisture, 5cm
- 2. Model Discussion – ~06/15/20 - 09/30/20
 - a. Produced daily during active weather events
 - b. Suspend during inactive weather periods
- 3. Site-Specific Products
 - a. TUS Station Plot
 - b. PHX Station Plot
 - c. Yuma Station Plot
 - d. Pinal County Station Plot
 - e. Nogales Station Plot
 - f. Pinal County (KCGZ) Skew-T diagram
- 4. Initialization and Verification
 - a. PWV Correction
 - b. Previous Run's Verification for selected NWS weather stations
 - c. Assimilation of atmospheric aerosols from the NASA GEOS-5 forecast system.
