If a budget term has been completed in a multi-term Contract, the parties may agree to change the amount and type of funding to accommodate new circumstances in the next budget term. 4.10. Property of the State.

- 4.10.1. *Equipment.* Except as provided below or otherwise agreed to by the parties, the title to any and all equipment acquired through the expenditure of funds received from the State shall remain the property of the State by and through the ADHS and, as such, shall remain under the sole direction, management and control of the ADHS. When this Contract is terminated, the disposition of all such property shall be determined by the ADHS. For Fixed Price contracts, when the Contractor provides the services/materials required by the Contract, any and all equipment purchased by the Contractor remains the property of the Contractor. All purchases of equipment need to be reported to the ADHS Office of Inventory Control.
- 4.10.2. *Title and Rights to Materials.* As used in this section, the term “Materials” means all products created or produced by the Contractor under this Contract, including, but not limited to: written and electronic information, recordings, reports, research, research findings, conclusions, abstracts, results, software, data and any other intellectual property or deliverables created, prepared, or received by the Contractor in performance of this Contract. Contractor acknowledges that all Materials are the property of the State by and through the ADHS and, as such, shall remain under the sole direction, management and control of the ADHS. The Contractor is not entitled to a patent or copyright on these Materials and may not transfer a patent or copyright on them to any other person or entity. To the extent any copyright in any Materials may originally vest in the Contractor, the Contractor hereby irrevocably transfers to the ADHS, for and on behalf of the State, all copyright ownership. The ADHS shall have full, complete and exclusive rights to reproduce, duplicate, adapt, distribute, display, disclose, publish, release and otherwise use all Materials. The Contractor shall not use or release these Materials without the prior written consent of the ADHS. When this Contract is terminated, the disposition of all such Materials shall be determined by the ADHS. Further, the Contractor agrees to give recognition to the ADHS for its support of any program when releasing or publishing program Materials.
- 4.10.3. *Notwithstanding the above, if the Contractor is a State agency, the following shall apply instead:* It is the intention of ADHS and Contractor that all material and intellectual property developed under this Agreement be used and controlled in ways to produce the greatest benefit to the parties to this Contract and the citizens of the State of Arizona. As used in this paragraph, “Material” means all written and electronic information, recordings, reports, findings, research information, abstracts, results, software, data, discoveries, inventions, procedures and processes of services developed by the Contractor and any other materials created, prepared or received by the Contractor and subcontractors in performance of this Agreement. “Material” as used herein shall not include any pre-existing data, information, materials, discoveries, inventions or any form of intellectual property invented, created, developed or devised by Contractor (or its employees, subcontractors or agents) prior to the commencement of the services funded by this Agreement or that may result from Contractor’s involvement in other service activities that are not funded by the Agreement.
- 4.10.4. Title and exclusive copyright to all Material shall vest in the State of Arizona, subject to any rights reserved on behalf of the federal government. As State agencies and instrumentalities, both ADHS and Contractor shall have full, complete, perpetual, irrevocable and non-transferable rights to reproduce, duplicate, adapt, make derivative works, distribute, display, disclose, publish and otherwise use any and all Material. The Contractor’s right to use Material shall include the following

	<p style="text-align: center;">INTERGOVERNMENTAL AGREEMENT (IGA)</p> <p style="text-align: center;">Amendment</p>		<p>ARIZONA DEPARTMENT OF HEALTH SERVICES 150 18th Ave Suite 530 Phoenix, Arizona 85007</p>
	<p>Agreement No.: CTR055413 (formerly: IGA 2020-022)</p>	<p>IGA Amendment No: 1</p>	<p>Procurement Officer Karla Varela</p>

rights: the right to use the Material in connection with its internal, non-profit research and educational activities, the right to present at academic or professional meetings or symposia and the right to publish in journals, theses, dissertations or otherwise of Contractor's own choosing. Contractor agrees to provide ADHS with a right of review prior to any publication or public presentation of the Material, and ADHS shall be entitled to request the removal of its confidential information or any other content the disclosure of which would be contrary to the best interest of the State of Arizona. Neither party shall release confidential information to the public without the prior expressly written permission of the other, unless required by the State public records statutes or other law, including a court order. Each party agrees to give recognition to the other party in all public presentations or publications of any Material, when releasing or publishing them.

- 4.10.5. In addition, ADHS and Contractor agree that any and all Material shall be made freely available to the public to the extent it is in the best interest of the State. However, if either party wants to license or assign an intellectual property interest in the material to a third-party for monetary compensation, ADHS and Contractor agree to convene to determine the relevant issues of title, copyright, patent and distribution of revenue. In the event of a controversy as to whether the Material is being used for monetary compensation or in a way that interferes with the best interest of the state or ADHS, then the Arizona Department of Administration shall make the final decision. Notwithstanding the above, "monetary compensation" does not include compensation paid to an individual creator for traditional publications in academia (the copyrights to which are Employee-Excluded Works under ABOR Intellectual Property Policy Section 6-908C.4.), an honorarium or other reimbursement of expenses for an academic or professional presentation, or an unprofitable distribution of Material.
- 4.11. E-Verify Requirements In accordance with A.R.S. § 41-4401, Contractor warrants compliance with all Federal immigration laws and regulations relating to employees and warrants its compliance with Section A.R.S. § 23-214, Subsection A.
- 4.12. Federal Immigration and Nationality Act The Contractor shall comply with all federal, state and local immigration laws and regulations relating to the immigration status of their employees during the term of the Contract. Further, the Contractor shall flow down this requirement to all subcontractors utilized during the term of the Contract. The State shall retain the right to perform random audits of Contractor and subcontractor records or to inspect papers of any employee thereof to ensure compliance. Should the State determine that the Contractor and/or any subcontractors be found noncompliant, the State may pursue all remedies allowed by law, including, but not limited to; suspension of work, termination of the Contract for default and suspension and/or debarment of the Contractor.

5. Costs and Payments

- 5.1. Payments. Payments shall comply with the requirements of A.R.S. Titles 35 and 41, net 30 days. Upon receipt and acceptance of goods or services, the Contractor shall submit a complete and accurate Contractor's Expenditure Report for payment from the State within thirty (30) days, as provided in the Accounting and Auditing Procedures Manual for the ADHS.
- 5.2. Recoupment of Contract Payments.
- 5.2.1. *Unearned Advanced Funds*. Any unearned State funds that have been advanced to the Contractor

	<p style="text-align: center;">INTERGOVERNMENTAL AGREEMENT (IGA)</p> <p style="text-align: center;">Amendment</p>		<p>ARIZONA DEPARTMENT OF HEALTH SERVICES 150 18th Ave Suite 530 Phoenix, Arizona 85007</p>

and remain in its possession at the end of each budget term, or at the time of termination of the Contract, shall be refunded to the ADHS within forty-five (45) days of the end of a budget term or of the time of termination.

- 5.2.2. *Contracted Services.* In a fixed price contract, if the number of services provided is less than the number of services for which the Contractor received compensation, funds to be returned to the ADHS shall be determined by the Contract price. Where the price is determined by cost per unit of service or material, the funds to be returned shall be determined by multiplying the unit of service cost by the number of services the Contractor did not provide during the Contract term. Where the price for a deliverable is fixed, but the deliverable has not been completed, the Contractor shall be paid a pro rata portion of the completed deliverable. In a cost reimbursement contract, the ADHS shall pay for any costs that the Contractor can document as having been paid by the Contractor and approved by ADHS. In addition, the Contractor will be paid its reasonable actual costs for work in progress as determined by Generally Accepted Accounting Procedures up to the date of contract termination.
- 5.2.3. *Refunds.* Within forty-five (45) days after the end of each budget term or of the time of termination of the Contract, the Contractor shall refund the greater of: i) the amount refundable in accordance with paragraph 4.2.1, Unearned Advanced Funds; or ii) the amount refundable in accordance with paragraph 5.2.2, Contracted Services.
- 5.2.4. *Unacceptable Expenditures.* The Contractor agrees to reimburse the ADHS for all Contract funds expended, which are determined by the ADHS not to have been disbursed by the Contractor in accordance with the terms of this Contract. The Contractor shall reimburse ADHS within 45 days of the determination of unacceptability.
- 5.3. Unit Costs/Rates or Fees. Unit costs/rates or fees shall be based on costs, which are determined by ADHS to be reasonable, allowable and allocable as outlined in the Accounting and Auditing Procedures Manual for the ADHS.
- 5.4. Applicable Taxes.
- 5.4.1. *State and Local Transaction Privilege Taxes.* The State of Arizona is subject to all applicable state and local transaction privilege taxes. Transaction privilege taxes apply to the sale and are the responsibility of the seller to remit. Failure to collect taxes from the buyer does not relieve the seller from its obligation to remit taxes.
- 5.4.2. *Tax Indemnification.* The Contractor and all subcontractors shall pay all federal, state and local taxes applicable to its operation and any persons employed by the Contractor. Contractor shall require all subcontractors to hold the State harmless from any responsibility for taxes, damages and interest, if applicable, contributions required under Federal, and/or state and local laws and regulations and any other costs, including transaction privilege taxes, unemployment compensation insurance, Social Security and Worker's Compensation.
- 5.4.3. *I.R.S. W9 Form.* In order to receive payment under any resulting Contract, the Contractor shall have a current I.R.S. W9 Form on file with the State of Arizona.

	<p style="text-align: center;">INTERGOVERNMENTAL AGREEMENT (IGA)</p> <p style="text-align: center;">Amendment</p>		<p>ARIZONA DEPARTMENT OF HEALTH SERVICES 150 18th Ave Suite 530 Phoenix, Arizona 85007</p>
	<p>Agreement No.: CTR055413 (formerly: IGA 2020-022)</p>	<p>IGA Amendment No: 1</p>	<p>Procurement Officer Karla Varela</p>

5.5. Availability of Funds for the Next Fiscal Year. Funds may not be presently available for performance under this Contract beyond the first year of the budget term or Contract term. The State may reduce payments or terminate this Contract without further recourse, obligation or penalty in the event that insufficient funds are appropriated in the subsequent budget term. The State shall not be liable for any purchases or Subcontracts entered into by the Contractor in anticipation of such funding. The Procurement Officer shall have the discretion in determining the availability of funds.

5.6. Availability of Funds for the Current Contract Term. Should the State Legislature enter back into session and decrease the appropriations through line item or general fund reductions, or for any other reason these goods or services are not funded as determined by ADHS, the following actions may be taken by ADHS:

- 5.6.1. Accept a decrease in price offered by the Contractor;
- 5.6.2. Reduce the number of goods or units of service and reduce the payments accordingly;
- 5.6.3. Offer reductions in funding as an alternative to Contract termination; or
- 5.6.4. Cancel the Contract.

6. Contract Changes

6.1. Amendments, Purchase Orders and Change Orders. This Contract is issued under the authority of the Procurement Officer who signed this Contract. The Contract may be modified only through a Contract Amendment, Purchase Order and/or Change Order within the scope of the Contract, unless the change is administrative or otherwise permitted by the Special Terms and Conditions. Changes to the Contract, including the addition of work or materials, the revision of payment terms, or the substitution of work or materials, directed by an unauthorized State employee or made unilaterally by the Contractor are violations of the Contract and of applicable law. Such changes, including unauthorized Contract Amendments, Purchase Orders and/or Change Orders, shall be void and without effect, and the Contractor shall not be entitled to any claim under this Contract based on those changes.

6.2. Subcontracts. The Contractor shall not enter into any subcontract under this Contract without the advance written approval of the Procurement Officer. The subcontract shall incorporate by reference all material and applicable terms and conditions of this Contract.

6.3. Assignments and Delegation. The Contractor shall not assign any right nor delegate any duty under this Contract without the prior written approval of the Procurement Officer. The State shall not unreasonably withhold approval.

7. Risk and Liability

7.1. Risk of Loss. The Contractor shall bear all loss of conforming material covered under this Contract until received and accepted by authorized personnel at the location designated in the Purchase Order, Change Order or Contract. Mere receipt does not constitute final acceptance. The risk of loss for nonconforming materials shall remain with the Contractor regardless of receipt.

7.2. Mutual Indemnification. Each party (as "indemnitor") agrees to indemnify, defend and hold harmless the other

	<p style="text-align: center;">INTERGOVERNMENTAL AGREEMENT (IGA)</p> <p style="text-align: center;">Amendment</p>		<p>ARIZONA DEPARTMENT OF HEALTH SERVICES 150 18th Ave Suite 530 Phoenix, Arizona 85007</p>

party (as “indemnitee”) from and against any and all claims, losses, liability, costs or expenses (including reasonable attorney’s fees) (hereinafter collectively referred to as “claims”) arising out of bodily injury of any person (including death) or property damage, but only to the extent that such claims, which result in vicarious/derivative liability to the indemnitee, are caused by the act, omission, negligence, misconduct, or other fault of the indemnitor, its officers, officials, agents, employees or volunteers.

7.3. Force Majeure.

7.3.1. *Liability and Definition.* Except for payment of sums due, neither party shall be liable to the other nor deemed in default under this Contract if and to the extent that such party’s performance of this Contract is prevented by reason of force majeure. The term “*force majeure*” means an occurrence that is beyond the control of the party affected and occurs without its fault or negligence. Without limiting the foregoing, force majeure includes acts of God; acts of the public enemy; acts of terrorism; war; riots; strikes; mobilization; labor disputes; civil disorders; fire; flood; lockouts; injunctions-interventions not caused by or resulting from the act or failure to act of the parties; failures or refusals to act by government authority not caused by or resulting from the act or failure to act of the parties; and other similar occurrences beyond the control of the party declaring force majeure, which such party is unable to prevent by exercising reasonable diligence.

7.3.2. *Exclusions.* Force Majeure shall not include the following occurrences:

7.3.2.1. Late delivery of Materials caused by congestion at a manufacturer’s plant or elsewhere, or an oversold condition of the market;

7.3.2.2. Late performance by a subcontractor unless the delay arises out of a force majeure occurrence in accordance with this force majeure term and condition; or

7.3.2.3. Inability of either the Contractor or any subcontractor to acquire or maintain any required insurance, bonds, licenses or permits.

7.3.3. *Notice.* If either party is delayed at any time in the progress of the work by force majeure, the delayed party shall notify the other party in writing of such delay, as soon as is practicable and no later than the following working day of the commencement thereof, and shall specify the causes of such delay in such notice. Such notice shall be delivered or mailed certified-return receipt and shall make a specific reference to this article, thereby invoking its provisions. The delayed party shall cause such delay to cease as soon as practicable and shall notify the other party in writing when it has done so. The time of completion shall be extended by Contract Amendment for a period of time equal to the time that the results or effects of such delay prevent the delayed party from performing in accordance with this Contract.

7.3.4. *Default.* Any delay or failure in performance by either party hereto shall not constitute default hereunder or give rise to any claim for damages or loss of anticipated profits if, and to the extent that, such delay or failure is caused by force majeure.

7.4. Third Party Antitrust Violations. The Contractor assigns to the State any claim for overcharges resulting from antitrust violations to the extent that those violations concern materials or services supplied by third parties

SCOPE OF WORK

1. Background

- 1.1. The vision of the Arizona Department of Health Services (ADHS) is “Health and Wellness for all Arizonans.” In December of 2013, ADHS completed a State Health Assessment (SHA). The SHA utilized Community Health Assessments conducted by local county health departments to assess the needs and capacity of public health in Arizona. This work resulted in the identification of fifteen (15) leading public health issues affecting the health of our communities. With stakeholder input, the Arizona State Health Improvement Plan (AzHIP) created a roadmap to improve the health of Arizonans over the next five (5) years through the development of partnerships and resources to work collectively on shared health improvement goals and strategies. This is how the original Healthy People Healthy Communities Intergovernmental Agreement (HPHC IGA) was born.
- 1.2. These goals and strategies were accomplished through a collaborative approach that engages local, state and national partners to improve the health and well-being of Arizonans. Collectively, evidence based preventative health strategies were implemented, designed to impact health through health policy, system and environmental change initiatives, health promotion and education for individuals and communities, and enhancement of the public health **infrastructure**.
- 1.3. Implementation of the original IGA was completed in three (3) phases that occurred in the first year of the IGA to accommodate funding cycles. Phase I included Tobacco, Chronic Disease, and the Health in Arizona Policy Initiative (HAPI), and began in July 2015. Phase II included the Public Health and Health Services Block Grant/Accreditation and began in October 2015. Phase III included Teen Pregnancy Prevention, Family Planning, and Maternal and Child Health, and began in January 2016. All three (3) phases were operational and fully implemented in years two (2) through five (5) with annual start dates of July 1st.
- 1.4. Beginning in July 2020, the original HPHC IGA was split apart and two (2) separate IGAs were formed; a fixed price contract and a cost-based reimbursement contract. The programs to be included in this fixed price contract are: Tobacco Cessation and Prevention, Teen Pregnancy Prevention and its Youth Mental Health First Aid Initiative, Health in Arizona Policy Initiative (HAPI), Public Health Improvement, Child Fatality Review and **the Suicide Mortality Review Programs**.
- 1.5. The Child Fatality Review is administered by the Arizona Department of Health Services (ADHS), and utilizes locally developed multi-disciplinary teams throughout the state to conduct a detailed review of the circumstances surrounding childhood deaths. The purpose of the program is to develop and implement data-driven recommendations for reducing preventable childhood deaths.
- 1.6. **The Suicide Mortality Review Program is administered by ADHS, who will develop a suicide mortalities data collection system, encourage and assist in the development of local suicide mortality review teams, and provide training and technical assistance to those teams.**

2. Purpose

The purpose of this IGA is to leverage multiple public health funding sources to support implementation of health priorities identified in the AzHIP (2021- 2026) and the County Health Improvement Plans (CHIP). This IGA is

	INTERGOVERNMENTAL AGREEMENT (IGA) Amendment		ARIZONA DEPARTMENT OF HEALTH SERVICES 150 18 th Ave Suite 530 Phoenix, Arizona 85007
	Agreement No.: CTR055413 (formerly: IGA 2020-022)	IGA Amendment No: 1	Procurement Officer Karla Varela

intended to provide flexibility to the County Health Departments to best meet the needs of their local communities through high impact strategies that realize the agreed upon outcomes. The IGA provides a pathway to improved coordination of multiple prevention programs **and the Suicide Mortality Review Program**, while streamlining the administrative functions for the programs that were previously administered separately.

3. Objective

The County Contractor will implement evidence-based strategies at the local community level that:

- 3.1 Promote and implement healthy communities' interventions that target policy, system and environmental approaches that will shape the communities in which we live, learn, work, and play; and
- 3.2 Promote and implement healthy people interventions that target individual behavior and support making healthy choices.

The County Contractor shall implement evidence-based strategies and conduct child fatality reviews at the local community level that:

- 3.3 Promote and implement healthy communities' interventions that target policy, system and environmental approaches that will shape the communities in which we live, learn, work, and play;
- 3.4 Promote and implement healthy people interventions that target individual behavior and support making healthy choices;
- 3.5 Review the circumstances surrounding the deaths of children, from birth through age seventeen (17), occurring in Arizona, to determine the preventability of each death and develop recommendations to reduce preventable childhood deaths; and
- 3.6 Review the deaths of all children who reside in their counties, and also the deaths of all children which occur within their counties, including children who were not residents of Arizona.

The County Contractor shall implement evidence-based strategies and conduct Suicide Mortality Review at the local community level that:

- 3.7 Promote and implement healthy communities' interventions that target policy, system and environmental approaches that will shape the communities in which we live, learn, work, and play;
- 3.8 Attend ADHS training and technical assistance sessions on standards and protocols for local suicide mortality review teams;
- 3.9 Bring together local community agencies in a formal process to systematically share information on suicide events for persons over the age of eighteen (18) years old, identify risk factors in those deaths, and provide prevention recommendations.

4. Scope of Service

This IGA offers a variety of evidence-based strategies designed to impact policy, system, and environmental change at the community, organizational, individual, and policy levels in order to promote county-wide health changes so that public health impact will be maximized. Contingent upon available funding, Counties are expected to implement at multiple levels, in accordance with local community needs, and should emphasize complementary policy, environmental, programmatic, and infrastructure activities that integrate and build on each other to optimize the health improvements of the community.

In Arizona, both the number and rate of suicides continues to rise. Arizona's rate of suicide per 100,000 people was 24% higher than that of the United States in 2017. In 2018, suicide ranked 8th among the leading causes of death but contributed substantially to premature mortality. Yet, suicide is preventable. Pursuant to A.R.S. § 36-199 and § 36-199.01, ADHS is establishing a Suicide Mortality Review Team in the Department of Health Services. The program will conduct an annual analysis on the incidences and causes of suicides in the state during the preceding fiscal year. This analysis will help to inform what changes are needed to decrease the incidence of preventable suicides, and as appropriate, take steps to implement these changes. ADHS will fund, encourage and assist in the development of local county health department Suicide Mortality Review Teams in their local jurisdiction and to develop suicide prevention recommendations for their communities.

Counties must select from a menu of evidence-based strategies, found in **Exhibits A-G** that influence individual behaviors, policy, organizational practices, systems, and environments through the following specific program areas:

- 4.1 Exhibit A – Tobacco;
- 4.2 Exhibit B – Health in Arizona Policy Initiative (HAPI);
- 4.3 Exhibit C – Public Health Improvement;
- 4.4 Exhibit D – Teen Pregnancy Prevention and Youth Mental Health First Aid Initiative;
- 4.5 Exhibit E – Child Fatality Review;
- 4.6 Exhibit F – Suicide Mortality Review; and
- 4.7 Exhibit G – Supporting Documentation.

5. Evaluation:

Performance measures and evaluations allow the counties and ADHS to collaboratively track progress, process indicators, outcomes measures, and impacts. As part of the local evaluation plan, the counties will be responsible for measuring the short term, and intermediate outcomes. Monitoring progress on short-term outcomes provides an opportunity for the Local Health Departments to adjust strategies to ensure increased long-term impact. ADHS in coordination with the Counties will be responsible for measuring the long-term and impact outcomes. Process indicators, outcomes measures, and impacts must clearly relate to the selected strategies and activities identified within each County's Annual Action Plan.

EXHIBIT A

EVIDENCE-BASED STRATEGIES FOR TOBACCO

The Office of Tobacco Prevention and Cessation (“Office of Tobacco”) within the Bureau of Chronic Disease and Health Promotions (“BCDHP”) at Arizona Department of Health Services (ADHS) has historically supported evidence-based programs and system level changes that assist smokers in disparate or high-risk populations with tobacco prevention and cessation services. In Arizona, there are populations that are disproportionately impacted by tobacco use. Currently, priority populations identified by the Office of Tobacco are: 1) youth, 2) the justice-involved, and 3) those enrolled in the Arizona Healthcare Cost Containment System (AHCCCS).

County health department partners are required to identify **three** (3) populations that are disproportionately impacted by tobacco use in their communities, which may include the three populations identified above or with other populations which may be identified based on county-level data. Counties will provide the selected population groups with targeted evidence-based programs and activities for two components: 1) Tobacco Prevention and 2) Tobacco Cessation. In addition, counties will participate in three ADHS-led work groups that will explore innovative approaches to tobacco programming that address 1) Youth; 2) Secondhand Smoke (SHS); and 3) Emerging Issues. Counties will also engage in in-person and virtual meetings as identified by ADHS.

The strategies within the Healthy People Healthy Communities (HPHC) Intergovernmental Agreement (IGA) are population-based approaches that will require collaboration and support from key community partners, as well as promote health system level changes within healthcare systems and employers. These tobacco prevention and cessation strategies align with the U.S. Surgeon General’s Report on Smoking Cessation 2020, the Centers for Disease Control (CDC) National Comprehensive Tobacco Control Program (NTCP), and Arizona Health Improvement Plan (AzHIP) 2021-2025.

The Tobacco component of the HPHC IGA is funded by Proposition 200, which states that tobacco tax dollars under the Health Education Account (HEA) requires monies be spent on “programs for the prevention and reduction of tobacco use.” Arizona Revised Statute (A.R.S. § 36-772) authorizes four types of expenditures by the HEA: contracts with county health departments and other local partners, administrative expenses, advertising, and evaluation of programs. Spending these monies for lobbying for political campaigns is expressly prohibited.

The County Contractor must select one (1) or more strategies from this strategic area.

This Exhibit defines the Program Strategy/s within each Strategic Area:

1. Strategic Area: Tobacco

- 1.1 Reduce tobacco-related disparities among target populations. Counties will select populations based on local available data, including tobacco prevalence rates (BRFSS, AYS, YRBSS), CHIP, and CHA data, to inform programming;
 - 1.1.1 Prevent the initiation of tobacco use (including emerging products and e-cigarettes) among youth and young adults (required),

	Agreement No.: CTR055413 (formerly: IGA 2020-022)	IGA Amendment No: 1	Procurement Officer Karla Varela

- 1.1.1.1 Maintain current peer-to-peer youth programming to empower youth leadership and engagement;
- 1.1.1.2 Support the ADHS-selected contractor with recruiting youth participants for statewide Enforcement efforts; and
- 1.1.1.3 Facilitate and conduct in their county the AGO Arizona Retailer Tobacco Training Program with retailers and clerks that have been cited for selling tobacco to underage youth
- 1.1.1.4 Collaborate with schools in their counties by:

 - 1.1.1.4.1.2 Establishing a Task Force with school districts, school administrators, or superintendents to identify current needs in youth prevention. Task Force efforts must include the development of a work plan, evaluation plan, and identified evidence-based strategies.

1.2 Implement evidence-based, culturally appropriate community interventions to promote quitting among adults and youth.

- 1.2.1 Counties will identify and eliminate tobacco-related disparities among **two** additional population groups:
 - 1.2.1.1 Individuals involved or at-risk for involvement with the criminal justice system, including jails, prisons, probation, parole, or specialty court;
 - 1.2.1.2 People of low socioeconomic status;
 - 1.2.1.3 Individuals with behavioral health conditions (including mental health conditions and substance use disorders); and/or
 - 1.2.1.4 Other priority population not listed and pre-approved by ADHS. Counties will submit a proposal to ADHS that will include surveillance and evaluation data to justify the population selection,
- 1.2.2 **Engage communities, partners, and community-based organizations to strengthen capacity. Counties will identify and select community partners that may include:**
 - 1.2.2.1 Employers; and
 - 1.2.2.2 Healthcare systems, including:

EVIDENCE-BASED STRATEGIES FOR HEALTH IN ARIZONA POLICY INITIATIVE (HAPI)

In January 2012, ADHS began the process of establishing contracts with local health departments to address health policy. In April 2012, ADHS established contracts with 13 of the 15 local health departments (Cochise, Coconino, Gila, Graham, Greenlee, La Paz, Maricopa, Mohave, Navajo, Pinal, Pima, Yavapai and Yuma). HAPI originally utilized funding from three separate sources: Proposition 303 Tobacco Tax; Women's, Infants and Children's (WIC) Health Lottery Revenue, and HRSA Title V Maternal & Child Health Block Grant. The overall goal of the Intergovernmental Agreement (IGA) was established to increase local capacity to implement preventative health policy, system and environmental (PSE) changes/ public health approaches through defined strategic areas.

The five (5) year IGA action plan(s) and activity/activities developed by the local health department will address the following funding priorities:

- 1) The four (4) leading chronic disease deaths, as reported by the Centers for Disease Control and Prevention (CDC) per [ARS 36-770](#) (Proposition 303 Tobacco Tax), and
- 2) WIC participants and their families per [WIC Health Lottery Revenue](#).

The County Contractor must select one (1) or more strategies from this strategic area.

This Exhibit defines the Program Strategy/s within each Strategic Area:

2. Strategic Area: Health in Arizona Policy Initiative (HAPI)

2.1 Social Determinants of Health (SDOH) / Health in All Policies (HiAP)

- 2.1.2 Develop and implement an action plan that includes policy, systems or environmental (PSE) / public health, and / or Health in All Policies (HiAP) approaches to address the gaps in addressing public health and social determinants of health (SDOH), with consideration of the 4 leading causes of chronic disease death, at-or-high risk populations, co-morbidities, and/or health risks;

2.2 Community Engagement

- 2.2.1 Increase community engagement of partners, with consideration of the four (4) leading causes of chronic disease death, at-or-high risk populations, co-morbidities, and/or health risks,
- 2.2.2 Develop, create and/or participate in coalitions, with consideration of the four (4) leading causes of chronic disease death, at-or-high risk populations, co-morbidities, and /or health risks,

EVIDENCE-BASED STRATEGIES FOR PUBLIC HEALTH IMPROVEMENT

The purpose of the Public Health Improvement funding is to ensure a strong, inclusive, and connected state and local government public health system in Arizona. By supporting county health departments and their directors in the practice of public health, they can effectively perform essential public health services and meet [Public Health Accreditation Board](#) (PHAB) and their performance standards. The county health departments may use several strategies to support local initiatives to achieve healthy communities. As health departments often may not have identified funds and resources to build and strengthen their organizations, the Public Health Improvement funds allow for that flexibility within the established strategies. The funds may be used for activities to improve health department efficiency and effectiveness, increase performance management capacity, and enhance public health readiness activities in the face of emerging issues.

EVIDENCE-BASED STRATEGIES FOR TEEN PREGNANCY PREVENTION

The Teen Pregnancy Program offers strategic approaches to improve the health and social well-being of youth through the reduction of teen pregnancies and sexually transmitted diseases, and the awareness of healthy relationships and life skills, including financial literacy and educational and career success. EVIDENCE-BASED STRATEGIES FOR SUICIDE MORTALITY REVIEW

In Arizona, both the number and rate of suicides continues to rise. Arizona's rate of suicide per 100,000 people was 24% higher than that of the United States in 2017. In 2018, suicide ranked 8th among the leading causes of death but contributed substantially to premature mortality. Yet, suicide is preventable. Pursuant to A.R.S. § 36-199 and § 36-199.01, ADHS is establishing a Suicide Mortality Review Team in the Department of Health Services. The program will conduct an annual analysis on the incidences and causes of suicides in the state during the preceding fiscal year. This analysis will help to inform what changes are needed to decrease the incidence of preventable suicides, and as appropriate, take steps to implement these changes. ADHS will fund, encourage and assist in the development of local county health department Suicide Mortality Review Teams in their local jurisdiction and to develop suicide prevention recommendations for their communities.

On March 3, 2020 Governor Doug Ducey joined mental health advocates, legislators and family members affected by suicide to sign Senate Bill 1523, also known as Jake's Law. The bill is named in honor of Jake Machovsky, an Arizona teen who lost his life to suicide in 2016 after battling mental health issues. The law requires insurance companies to cover mental health treatment and creates the Children's Behavioral Health Services Fund and provides \$8 million for behavioral health services for children who are uninsured or underinsured. The law prohibits insurance companies from denying coverage for services that are covered by the plan simply because they are delivered in an educational setting. This law also establishes a mental health parity advisory committee to ensure that all parties including families, providers, advocacy organizations, and insurers have a voice at the table, creates a suicide mortality review team to review deaths by suicide and provide policymakers with improved data and recommendations, and helps increase follow-up services for patients at risk for suicide.

Proposition 207, The Smart and Safe Act, was passed by Arizona voters in November 2020, authorizing the legal use of recreational marijuana. The funds from this act will be available on July 1, 2021. The Arizona Department of Health Services (ADHS), Bureau of Women's and Children's Health (BWCH), is charged with the implementation of a portion of these funds.
