

## **Pinal County School Office Education Service Agency Intergovernmental Agreement**

Hello, I am Director Joel Villegas, and the purpose of this agenda item is to request approval from the Board of Supervisors for the FY2021-2022 Intergovernmental Agreement of the Pinal County Education Service Consortium

### **Agenda Item Summary:**

Each Fiscal Year the school districts of Pinal County have the option to participate in an Education Service Consortium under the Pinal County School Office Education Service Agency. This is a fee-based consortium. Fees for each district are determined by student population numbers. The purpose of the consortium is to efficiently provide services for districts in professional staff development, technical assistance, data disaggregation, and to serve as a liaison between district and the Arizona Department of Education.

The Consortium model benefits school districts who do not have the capacity and personnel to offer these services. School districts sign the IGA annually and it provides an agreement for the services provided and payment of fees.

### **Conclusion:**

Approval of this item enters participating school districts into an agreement with Pinal County School Office for the Pinal County Education Service Consortium. Thank you for your consideration and time for this agenda item.
