Possible beneficiaries of funds requested

Narrative and description of project/request

Dudleyville Volunteer Fire District is looking to replace it's aged and end of life first first responder equipment. Our emergency response team relies on this obsolete equipment when aiding trapped car accident victims. Outdated equipment not only delays the extraction of injured citizens, but also impacts the chances of saving lives during emergencies. Well-equipped first responders are better prepared to handle a wide range of emergencies, making the community a safer place to live and work.

12D Fund Request Application

Identification of mechanism for reporting on use of funds (recommended at quarterly intervals).

Maintaining a detailed record of expenses related to this project, including all receipts and invoices as evidence of expenditures. The District will prepare quarterly fiancial statements and balance sheets to provide an update on the projects progress.

Additional comments (if more space is needed, please attach additional sheets to application).

To ensure the continued safety and well-being of our residents and first responders, we are asking for the San Carlos Apache Tribes support in securing funding to replace this vital piece of equipment.Together, we can make our community safer for everyone.
