Thank you Leo, and as luck would have it, right after I emailed you on those, we had another one pop. This time of year means that we have all these last minute grants that pop up for us.

The additional grant that I need the exception on is through AZDOHS/OPSG for OT, ERE's, Fuel and maintenance for our helo's. My apologies for not including this with the other two this morning.

Good morning Leo. Hope you have been well.

We have two grants that we have submitted for that I would like to request an exception on, as we have to submit them prior to being able to get them before the board. The first one is the Bert Martin foundation grant, which will be for our MWR fund, Shop with a Sheriff, and equipment. The second is for a DEMA grant for a leased helicopter to be used by our aviation unit. Thank you in advance for your consideration.
